PROFILE

Passionate Front-end Developer with a lot of skills. Knowledgeable in user interface, testing, and debugging processes. Able to effectively self-manage during independent projects, as well as collaborate in a team setting

PROJECTS

Portfolio

- In My Portfolio I made use of typed.js for animation and flex-box
- It is a Responsive website
- The deployment of the app was done through Vercel
- Link for the app - https://my-portfolio-chi-ten-14.vercel.app/

Mappy App

- Mappy is a web application bulit using Javascript, HTML & CSS
- The user can select a location and select any of the activity between running cycling and other details and can pin the location on the map.
- I made the use of leaflet for map and geolocation
- Link for the app - https://mappy-activities.vercel.app/

Tezz-Khabar

- Tezz-khabar is a modern React project which displays latest news
- It uses News API
- React Router comes in handy for displaying different categories of news, eg - Sports, Technology, etc
- Link for the app - https://vercel.com/muzammilqure/tezz-khabar
